## SENSATIONAL SUITS FILED AT MAYFIELD AGAINST PADUCAHANS.

Mayfield, Ky., June 11.—Two sensational suits were filed here late yesterday afternoon by C. W. Boswell and Z. T. Long of this place against Gilbert & Arenz, proprietors of the Paducah commission company at Paducah and against the Odell Commission Co. of Cincinnati, and W. C. Morris, manager at this place. Boswell says the company for \$3,000 and Long \$1410 said to have been lost in bucket shop deals since last November. The cash book in the bank here and in Paducah together with all other assets in sight have been ordered attached. The recent slump in stocks is said to have put these parties far behind with the company hence the suits.

## JETT FIRED THE SHOT

Sister of Dead Man Says He Admitted it.

Captain Ewen Says He Was Offered \$5,000 Not to Swear He Saw Jett.

## SENSATIONAL DEVELOPMENTS

Jackson, Ky., June 11.—Capt. Ewen says he was offered \$5,000 to make a statement that he did not see Orris Jett in the court house when Maroon was killed. Inspector Hines is investigating the charge.

When court reconvened yesterday afternoon the daughter of County Judge Hargis, the leader of the dominant feudists, occupied a seat beside the prisoners. At the afternoon sitting of the court attorneys for the defendants moved to dispense with the presence of troops in the court room and were overruled.

What is regarded here as very significant was the arrival of Inspector Hines from Frankfort under orders from Gov. Beckham. It is generally believed that Inspector Hines will report as to how the trial is conducted so far as judge, prosecutor, jury and all officials are concerned, and much interest is taken in his presence.

Last night Mrs. Mary Johnson, sister of the murdered attorney, made a statement which is even more startling than Ewen's admission. In his statement Commonwealth's Attorney Hyrd said that it would be proved that Jett admitted to Mrs. Johnson that he killed Maroon. In the evidence yesterday afternoon it was stated that Jett and White were seen talking to Mrs. Johnson at the bridge. Mrs. Johnson confirms what Hyrd said would be her testimony, adding that she feared to tell this earlier, believing that she would be assassinated.

"As I was returning home shortly after the killing," she said, "I was overtaken by Jett. He spoke to me, and I said: 'Jett, did you kill my brother?' He replied: 'I did, but Hargis' money made me do it.' He said he was going to leave the country. Then Tom White came up, and I asked him if he had anything to do with the murder, and he said he was there but did not fire the shot."

The nature of the testimony and its drift and the statement of Mrs. Johnson causes anticipation of more sensational developments as the trial progresses.

A provost marshal was last night in charge of Jackson. Under the order of Col. Williams, who is in command of the troops, provost guards are to patrol the streets day and night and make arrests for any infractions of the law, including drunkenness, firing pistols or disorderly conduct of any character. Capt. Longmire, who was appointed provost marshal, is also authorized to search any and all persons on the street whom he has reason to suspect of carrying arms.

## AVENGED HIS FATHER.

## SEVENTEEN YEAR OLD BOY HANDY WITH HIS GUN.

Prescott, Ark., June 11.—Near Emmett, about eight miles from this place, Will Sutton was instantly killed by a man named Johnson, whereupon Sutton's son, aged 17, took the smoking gun of his dead father and shot Johnson, wounding him so seriously it is thought he cannot survive. Both of the antagonists were occupying the same house and fell out over a trivial family affair.

## DOG WARRANTS.

## THE CRUSADE AGAINST CANINES BEGINS.

The first batch of warrants for failing to pay dog tax was issued this afternoon by Judge Sanders. Those warranted live mostly on the North Side and are as follows, all are colored: Mary Compton, Urchy Russell, Will Bell, Ed Carther, Josie Patterson, Tom Robertson and Mose Rogers. Other warrants will be issued as rapidly as the police can get them.

## PRETENDER MOUNTS THRONE

King and Queen of Servia Assassinated Last Night.

## Military Revolution Results in Wholesale Murders and New Dynasty.

Belgrade, Serbia, June 11.—A military revolution broke out here last night. The troops who revolted under leadership of Angkovic surrounded the palace and assassinated King Alexander, Queen Draga, the latter's sister, the queen's brother, Nikodem, Premier Markovitch, Ministers Petrovitch and Todorovics, General Pavlovitch, the former minister of war and some of the royal guard.

Prince Karageorgovitch was proclaimed king. A new government was formed and proclamation issued.

## TO PLAY "FAUST" TERRIBLE CONDITIONS

Daughters of Confederacy Will Get It Up Immediately.

Elaborate Play to be Given Here Shortly.

It was decided this afternoon to present in Paducah in about three weeks for the benefit of the Daughters of the Confederacy the well known play "Faust." Preparations will at once begin for the piece, which will be put on in the most elaborate style, by local talent principally at the Kentucky theater.

Miss Flora May Clark, of the city, will take the part of "Marguerite," and Mr. James A. Young, of New York, who was seen here in "Quo Vadis" two years ago, will have the role of "Mephistopheles." The remainder of the cast will be residents of Paducah. Mr. Omar Fowler, bookkeeper for Mr. C. E. Jennings, who was at one time on the stage, will probably take the part of "Faust," and others who may be in the production are Mr. Richard Scott and Misses Jeanette Campbell, Mary Sykes and Geraldine Sanders, although no definite assignments have been made.

A stage manager will come down from New York to put on the piece, and it will probably be the most elaborate amateur entertainment ever given in Paducah.

Mr. Young will arrive next week from a successful tour in "Man to Man" in which Miss Clark played the leads until his illness, and will spend several weeks in the city.

Mrs. James Segenfelder is recovering from a several weeks' illness.

The people of Belgrade have been flocking the streets since 8 o'clock this morning, discussing the tragedy but without condemnation.

A strong detachment of troops is encamped about the palace of the newly proclaimed king, who was a pretender to the throne for many years. He was born in Belgrade in 1846, and married in 1883 to Princess Seorka, daughter of Princess Nicholas of Montenegro. She died in 1890. The people have received news of the assassination quietly.

## East St. Louis Badly Flooded But no Lives Lost Today.

Mails Are Greatly Delayed on Account of the rising Floods.

The conditions at East St. Louis, according to both press and private dispatches, have not improved, but seem to have become worse.

Rhodes-Burford, who have a branch furniture house there, received a telegram that there was great danger, much of the place being flooded. Mr. Rhodes is now in Louisville.

The John L. Jones company here also received a telegram that in south East St. Louis the water had reached a height of from ten to twenty feet, and was at their store there, but there is no danger except to the foundation. If this holds there will be little or no damage.

The mails to and from St. Louis are very irregular, but not so much so as the first of the week. Last night the first St. Louis mail of consequence received since Sunday came around over the N. C. and St. L. today. There was a good mail via Fulton.

St. Louis, Mo., June 11.—Chief of Police Parry of East St. Louis, made a gratifying announcement this afternoon that despite all reports to the contrary not one life reported lost by flood at East St. Louis. River is slowly falling and worst is believed to be over.

Mr. Thaddeus W. Dolberry has returned from Clear Springs, Graves county, where he has been resuscitating, and today resumed his position in the postoffice.

## THE EXPELLED MONKS

First Delegation Has Reached Kentucky.

Have Been Taken to Gethsemane and May Found New Monastery.

## 200 MORE ARE EXPECTED

Louisville, June 11.—Rt. Rev. Father Edmund O. Obrecht, Abbot of Gethsemane, and 17 refugees monks from France, are the vanguard of a body of Cistercians who, after two centuries undisturbed occupancy, have been forced to abandon their monastery at Fontgombault, near Tours, by the anti-congregational laws recently enacted in France. They were compelled to vacate the monastery, and either settled down as laymen, or flee to shores where monks may pursue his life without opposition.

The body of monks arrived in Louisville yesterday may be the nucleus of a new monastery in Kentucky and have gone to Gethsemane, and will be under Father Obrecht's charge at the Trappist monastery there. But the abbot of Fontgombault, with sixteen more brothers, three theological students and four priests, will follow shortly, and as soon as the whole flock is transplanted, efforts will be made to locate a monastery.

Father Edmund Obrecht met the party at New York on their arrival on La Bretagne last week. In the party is the superior of the old monastery, Father Pelltan, but the rest are clerics of lower rank. All are exceedingly sorrowful and cast down over their expulsion, but kept together in their one room at Seelbach's, exhibiting little enthusiasm for the New World.

Father Obrecht says that he expects at least 200 refugee monks to locate in Kentucky, and he is anxious to see their monastery in this state.

"However," remarks Abbot Obrecht, "we must scatter these monks as widely as possible, so that they will do the most good for the church. The present body is exceedingly poor. We will keep them at least six months at Gethsemane, before any steps are taken to locate them in a home of their own."

The monastery at Gethsemane has just purchased the Mt. Olivet estate, adjoining its own grounds, and thereby enlarged by several hundred acres. They own nearly 2,000 acres of fine land altogether.

## JEFFERSON STREET

Some Hitch in the Big Improvement Project.

Some Controversy as to Who Must Pay for a Curbing.

The street and public improvement committee of both boards met yesterday afternoon to discuss the proposed improvement of West Jefferson street.

The plans for improvement show a 100 foot street with the car track in the center. Dr. S. B. Caldwell sold most of the property in the course of improvement and left a strip of ground on both sides of the car track which he claims to have sold to the property owners with the property but failing to give a deed to this particular strip. A curb has to be built on both sides of the track and the cost of this work will fall on the owners, and some of the latter think Dr. Caldwell, whom they allege, it seems, still holds the property by not having deeded it away should be made to pay for the improvements while Dr. Caldwell thinks the reverse. The matter was referred to Solicitor Worren with orders to report at once and another meeting will probably be held tomorrow night if he prepares an opinion today.

The meeting was adjourned on account of this one question and nothing further was discussed relative to the improvement.

## THE FLOOD SITUATION

East St. Louis Is Almost Wholly Submerged.

Eleven Lives Were Lost Yesterday—Relief Afforded the Sufferers Today.

## MORE OF THE LEVEES BREAK

St. Louis, June 11.—Almost two-thirds of the territory embraced by East St. Louis, Ill., is under from two to fifteen feet of water. Yesterday eleven lives were sacrificed to the angry waters, and damage which no man has attempted to estimate has been done to property. Not a wheel of industry is turning in East St. Louis, but the flood waters whirl and soak at the foundations of many great buildings that have been deserted and the vast railroad yards can only be located by hundreds of half-submerged cars and locomotives. Huge grain elevators stand surrounded by running water. To the south beyond the rail yard are thousands of cottages owned by laborers and containing their all, submerged to the eaves.

In Northern East St. Louis the condition is not so bad. The business portion of the city and the district containing the better residences is still intact, but for how long is not known. Broadway, running from Eads' bridge east to the city limits, a wide street built of sand and walled with stone, fifteen feet high, divides the city in halves. Over ten feet of water is pressing against Broadway from the south, and in many places is slipping through in streams as thick as a man's body. Trefle over certain portions of the thoroughfare has been prohibited. If Broadway breaks the water will rush over much of the city north. Misour avenue, running parallel one block north, is concentrated. Along the river front to the west a levee of sand bags two to six feet high two miles long keeps the river out.

Cairo, June 11.—Levee district No. 2 in Mississippi county, Missouri, is under water, the levee which protects it having succumbed to the pressure of the water. Over 7,000 acres of fine farming land, most of it in growing wheat, is under water from five to twenty feet. The levee which protects district No. 1, the county surrounding Bird's Point, shows signs of weakening and it is believed the crisis will be reached tonight. The farmers are making desperate efforts to save it. So far no loss of life is reported from that section.

## FORMER RESIDENTS

Dr. Robt. Enders Dies in the Philippine Islands.

Death of a Former Resident at Longview, Tex.

Relatives here have received news of the recent death in Philippine Islands of Dr. Robert Enders, a member of the well known Enders family of this city, and once a resident of Paducah. He lived in Little Rock, Ark., and had been in the Philippines for some time. His wife was on her way to join him and met the remains near Honolulu, on their way to America, for burial. The deceased was a cousin of Mr. Will Cochran, the shoe merchant. He was about 40 years old.

The many friends here of Mrs. M. A. Gilbert will be sorry to learn of her death which occurred on June 5, of Bright's disease at her home in Longview, Texas. She formerly lived in Paducah. She leaves three daughters, Mesdames Bettie Arrant, Addie Mooney and Henry Hansen, all of Longview, besides several grandchildren.

Isom Townsend, age 40, of 1322 Clay street, died of consumption this morning about 7 o'clock and will be buried tomorrow morning at 10 o'clock at Oak Grove.

### HUSBAND POISONED.

### INDIANA WIFE ARRESTED AND RELEASED ON BOND.

Oannelton, Ind., June 11—Charged with the murder of her aged husband, from whom it is alleged she sought to be freed that she might win the man in whom she saw the reincarnation of her first husband, Mrs. Martha Dixon was placed on trial yesterday. She waived arraignment and gave bond in the sum of \$4,000, and the case was set for trial August 18.

Napoleon B. Dixon, the alleged victim of poisoning, suddenly fell ill in March last, and after lingering two weeks he died. The mysterious manner of his death aroused suspicions of poison, and the body was exhumed and the stomach found to contain arsenic. The grand jury at once returned an indictment charging Mrs. Dixon with murder. At the time she was indicted she was sick and was not arrested, but on her recovery two weeks ago she was lodged in jail.

#### TAX ON BABIES.

Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. 25c at DuBois, Kolb & Co.

# WHITE STAR COFFEE

When buying coffee, remember that a tin can will preserve in a correct way the much prized qualities of the choicest varieties—that it is the purity and flavor which it is important for you to have—that a coffee marketed upon its reputation is more likely to represent a legitimate value than one that is sold in some other way.

Every cup brewed from any of the White Star varieties has that color—that odor—and

## The Judge's Decision

HE SUMS UP THE COFFEE CASE

A judge of Creeds, Va., announces himself as a "reformed coffee toper" and gives authority to make the following public statement:

"For years the coffee habit had been growing on me until my condition was getting serious. I have considerable writing to do and had become so nervous that I had to depend almost entirely upon my wife to do the writing. Sometimes when it was imperative that I sign my name my hand trembled so I could scarce do it.

"I had severe headaches, stomach trouble, heart trouble, also some rheumatism. A friend, Rev. —, one day sent me a package of Postum Coffee, with request that I give up coffee and make a fair trial of Postum.

"I took the advice and the headaches ceased, also the stomach trouble. I now have no heart trouble at all, except when I use coffee for a time. My old nervousness is a thing of the past.

"My wife also suffered for years with heart trouble and extreme nervousness. She has found relief by leaving off coffee and using Postum. We now think it a much better drink than either coffee or tea. I have known of a number of cases that have been entirely cured or greatly benefited by leaving off coffee and using the food beverage, Postum."

#### SAVED BY TUNE.

PANIC NARROWLY AVERTED  
ON CIRCUS BOAT.

Uniontown, Ky., June 11—When the Great American Water Circus was giving a performance, with 1,500 people present, the Evansville packet landed at the wharfbat nearby. The wheel struck the circus barge, crushing in a small room, producing a great noise. Someone yelled "fire," women and children screamed and some fainted. Fortunately the band played on. Those with presence of mind sat still, and with the quieting talk of the circus manager order was restored without loss of life.

## A SERIOUS QUESTION.

The question of how to dispose of garbage in Paducah is one that should have been seriously considered a long time ago, but it never was, and today Paducah is confronted with conditions which constantly menace the health of the community. Complaint is made by city officials that people throw refuse of all kinds into the alleys, gutters and streets, and if the city were clean today it would be filthy again tomorrow. The question is how to dispose of the garbage. In other places there is a systematic method employed to get rid of it, but here it seems never to have struck the legislators in Paducah that garbage was intended for any other purpose than to be thrown in the back yard or alley, and they have accordingly permitted people to throw it where they like. Paducah is too large for such filthy and provincial methods. The city should devise some means of disposing of garbage, and require it to be disposed of. At present if all people were inclined to have the garbage from their homes hauled away, which many, in fact hundreds, are not, there would be no way to do it, for the few scavenger and garbage wagons in Paducah are utterly inadequate and could not carry away the city's daily garbage in a week, perhaps much longer. Even in the business part of the city, where there is sewerage, garbage is thrown onto the streets and into the alleys just as it was 25 years ago, many persons not having connected with the sewerage because they do not have to go to the expense, and prefer to throw their slops and garbage into the alleys.

This much is certain. There is bound to be refuse, effal and garbage in a city, and in a city of over 20,000 people, such as Paducah, it necessarily amounts to a great deal in one day. There is nothing for the people to do with it except have it hauled away, or throw it into the yard or alley where it decays and contaminates the neighborhood. Comparatively few people have garbage hauled away. There are only a few wagons here that are engaged in such a business, the reason there are not more being that many of the people do not use them, and with any mere the business could not be profitable. It is clear that the city will be unhealthy as long as it is not clean, and it is never clean. There are not enough garbage wagons to carry off the filth and keep it clean, if they were run day and night on charge. Citizens must be compelled to keep their premises clean, or the city should take some steps towards inaugurating a system of ridding every locality of accumulated garbage at regular intervals, especially in the summer, when a few days can cause conditions tending to produce great sickness.

It seems to be the policy with some of the local politicians when they do get rid of an official to refuse supply his department with the necessary machinery and then fire him letting the plant run down. Such was the case of the superintendent of the city electric light plant. He re-

peatedly asked for modern lights and more and better machinery, but he didn't get them. While he was away for his health, new material was supplied and the service under him was compared with that after the new machinery was put in, and he was decided out of order. The trouble with the city light plant has always been that it was a cheap, second class affair, and a perpetual monument to the inefficiency of Democratic administrations. It could have been made first class at any time by expending a reasonable amount of money on it, but the money has always been needed to pay the salaries of a horde of officeholders. The city can never expect to progress properly as long as salary grabbing is a regular vocation with so many people here.

Hon. A. E. Willson has opened his campaign for the Republican nomination for governor, at Louisville, and was greeted by an enthusiastic crowd. Stirring addresses were made by former Governor Bradley, Mr. Willson and others, and Republicans all over the state are inclined to take a hopeful view of the approaching campaign. The Republicans will doubtless, in their campaigns for nominations, be very temperate in their statements, as indicated by the opening of Mr. Willson's campaign, and when the battle begins with the Democrats, it will find the party lined up with a solid front to the enemy, and plenty of ammunition for effective use. The thing to be kept in view, and which will be kept in view, is the good of the party, and victory seems assured. With Democratic dissension, and disgust at the action of their party leaders, the Republican outlook is very bright, but this will not deter Republicans from working hard to achieve the victory that rightfully belongs to them.

Business in Kentucky has attained a rapid growth, and will increase at a still more rapid rate if the politicians and grafters who drive away capital and fight that already here, are annihilated. The Louisville postoffice, by reason of the enormous increase in receipts, now pays a \$6,000 salary, the highest in the United States with two or three exceptions, which were made by special act of congress. This shows a healthy business growth which seems to be proportionate throughout the state, the increase in receipts in nearly all the postoffices resulting in raises in the postmaster's salaries this year.

Owensboro seems to be having a hard time with the public library proposition, and petitions for and against it are being signed with a view to influencing the action of the authorities. The council has already voted against accepting a proposition from Mr. Carnegie, but a reconsideration is to be asked. It is claimed by the Owensboro press that the sentiment in favor of the library is overwhelming, but the opposers are strongly entrenched in power, and may defeat the will of the people.

The expansion of the postal service of the United States is very rapid, and it is now proposed to extend the exchange of money orders between the United States and Cuba. Similar service has been in existence since the Spanish war between the United States and Canada and has proven quite successful.

If some of our sincere, conscientious, unassuming citizens do not look out they will find themselves roped into one of the worst kind of political schemes to boost the candidacy of certain Democratic candidates.

It is always well to be slow but sure, but some of our boards are very uncertain, in addition to being inexcusably slow.

## HOW SCOTT WAS CAUGHT.

Unfortunate Incident Disclosed Great Novelist's Secret.

Wordsworth, though he had the appetite of a healthy mountaineer, drank neither wine nor malt liquors, and this abstinence Sir Walter Scott seems to have found rather trying while he was the English poet's guest at Rydal Mount. But there are many good wayside inns in the lake country, and into one of these Sir Walter would slip during his daily constitutional walk, and there drink a plot of honest malt liquor. It is needless to say that when he and Wordsworth strolled out together he would pass the inn with a dry throat, for Sir Walter was one of the kindest and most courteous of men, and he did not wish his brother poet to know that the water and tea served at his table were not wholly satisfying to the Laird of Abbotsford. But one day while out together they were caught in a storm and took shelter in the inn where the Scotch poet obtained his plot of "heavy wet." As a result, no sooner did the laird set eyes on him than he greeted him with the query: "Well, Sir Walter, ha' ye come for your pot o' ale?"

# Rock-a-Bye Baby CHANGES BEING MADE

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used, and the baby was born easily before the doctor arrived. It's certainly great."

## AN OPEN LETTER TO THE HONORABLE MAYOR AND POLICE AND FIRE COMMISSIONERS OF THE CITY OF PADUCAH.

Dear Sirs: We at the request of the Ministers' association of this city conveyed to you a courteous assurance of our desire to aid in every proper possible way to secure good government for our people. We find published in the city papers a letter from Mr. Crow purporting to be an answer to our courteous request. With kindest regards and with all due respect to Mr. Crow we did not write to him, nor are we at the present seeking his opinion. We feel that it is due that the mayor and the police and fire commissioners answer for themselves our communication involving the following questions to wit: Are we misinformed as to your instructions to the police? Do your subordinates in office disregard your instructions? Are their arrests nullified by the city court?

We have been led to believe that most rigid instructions have been given by the mayor and police and fire commissioners as to the enforcement of all laws and especially the Sunday closing law, but it is a notorious fact that this ordinance has not been enforced in the past.

We further ask at this time: Has Paducah as good government as the present administration is able to give? (As is indicated by Mr. Crow's article). And is a "uniformed" police a hindrance to good government, (as is further suggested by Mr. Crow's letter?)

Signed: THOS. J. NEWELL,  
W. H. PINKERTON,  
W. H. ROBINSON.

# CHANGES BEING MADE

## A General Weeding Out Among Illinois Central Officials.

Two or Three New Trainmasters Are  
Now Announced—(Other  
Changes.

## CHANGES IN THE TIME TABLE

Several important changes were yesterday effective on the Tennessee division of the Illinois Central. Mr. Frank Eldridge, trainmaster on the Cairo division, which includes territory from Jackson to Cairo with headquarters in Fulton, has been returned to Jackson, Tenn., to again be trainmaster on that division which is a smaller one and one less important with less salary attached. Mr. J. F. Dignan was appointed trainmaster of the Cairo division to succeed Eldridge. Mr. Dignan has served the company as traveling engineer on the Cairo division. Mr. A. F. Page, who has been trainmaster at Jackson, is now chief dispatcher at Jackson.

J. F. Sheridan, of Louisville, who has been chief dispatcher for the Illinois Central at that city has been promoted to the office of trainmaster to succeed Mr. T. A. Banks, resigned. Mr. Banks has been with the road for several years and worked his way up from a telegraph operator to his present position. It was the intention of the officials to transfer him south but he did not like the change and preferred some other position in this state which will be given him. Mr. Banks is one of the best men in the employ of the road and will probably receive an agency somewhere.

The new time card on the Memphis and Louisville division of the I. C. which will go into effect on the 14, next Sunday, makes only one change that will affect Paducah. This is in the schedule of the fast passenger train No. 104 which now arrives here about 1:34 a. m. This train under the newly arranged schedule will arrive here in time to depart at 1:48. This is only a slight change and will amount to practically nothing to the public. Several changes were made south of Paducah but will not affect this division.

E. F. North, who has been a dispatcher under Mr. Sheridan, has been promoted to chief dispatcher and Mr. J. B. Alvey has been promoted to the position vacated by Mr. North. Both the latter gentlemen are well known here and have many friends here who will be pleasantly surprised to learn of their promotion.

Mr. Sheridan has taken charge here and is now going over the road looking over his territory.

The St. Louis train due here yesterday morning struck an engine and freight car near Carbondale, Ill., on the Illinois Central and was derailed. An open switch caused the passenger to enter and strike an engine that was pushing a freight car, splintering the car and damaging both engines. No one was hurt, but some of the passengers were shaken up considerably.

John T. Travis, yardmaster at Fulton for the I. C. has resigned and will go to Trinidad, Col., to accept a position with the Colorado and Southern. James Gorman, who has been an engine foreman at Fulton, has been promoted to succeed him.

John Craig Morris, a 13 year old boy in Superintendent Stillwell's office in Fulton, is said to be a wonder, and in addition to being a stenographer and expert typewriter at that age, is popular with all the railroad men.

Mr. J. L. Darrett, the new traveling freight agent for the Illinois Central, who succeeds Mr. Watts, was in the city last night looking over his division.

Illinois Central stock is this month offered to officials and employees at \$135.25.

## "CONSTIPATED BOWELS."

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main street, Wichita, Kan., writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." Price 50c.

Captain Mike Williams has gone to Mound City, Ill., on business.

# HON. A. E. WILLSON

Augustus E. Willson, candidate for the Republican nomination for governor was born at Maysville, Kentucky in 1816 and will be 87 years old next October; he graduated at Harvard college in the class of 1869 and in 1870 began to practice law, entering the office of General Harlan, now Judge Harlan of the United States supreme court and Judge John E. Newman; in 1874 General Harlan formed the firm of Harlan & Willson, which continued until Judge Harlan was appointed to the supreme court in 1875, when Mr. Willson succeeded to the business; he has been practicing law at Louisville in the same office for 28 years. In 1875 Secretary Benjamin H. Bristol appointed Mr. Willson chief clerk of the treasury department, which office he at first declined, but finally accepted to hold temporarily and held until his resignation in August, 1879, when he returned to his practice. In 1884-'85 and '92 Mr. Willson was a delegate from Louisville to the Republican National convention. In 1884, '86, '89 and '92 he was nominated by the Republicans for congress present Louisville district, by acclamation and his campaign in Louisville set a new example of earnestness, thorough organization and effective campaigning. In 1884 he was invited by the Pennsylvania state Republican committee to make a campaign in Western Pennsylvania, where his efforts were received with great approval. In every Republican national and state campaign since 1884, Mr. Willson has made an active and earnest canvass in Kentucky the state, speaking almost in

every county of the state. In 1895 he accompanied Governor Bradley in the campaign which he made on a special train. In 1899 he accompanied Governor Taylor on his train. In all of these campaigns Mr. Willson's services have been sought by the state committee and freely given and he has been sent to the strongest Democratic districts in every instance, because his genuine respect and good will to his neighbors, without respect to party lines, the respectful manner in which he treats the opinion of others and his habit of persuading, rather than abusing people, have been found useful in the campaigns.

The cardinal principles of Mr. Willson's campaigns is freedom of opinion and respect for the rights and opinions of others. He has fought against persecution, especially of the Democrats towards Republicans; in his early campaigns he fought the Republican battles when it was neither popular nor pleasant. He was slow to consent to announce his candidacy, because of his business interests and duties which made it difficult for him to see his way clear to take the leadership of the campaign. His friends believe no one can bring out the vote in Louisville as can Mr. Willson.

It is not becoming for Republicans to say they will not vote for the choice of the convention and men who assert this are not good men to choose a candidate. The campaign will require a man able to present the issues, a man with capacity of leadership, and no one can truthfully say that Mr. Willson has not these qualifications.

## THAT'S THE TIME

WHEN PROPER FOOD IS NECESSARY.

Proper food is never more necessary than when recovering from a wasting sickness, when over-eating would be fatal and yet the body needs nourishment and plenty of it.

At this time the condensed food Grape-Nuts is shown to be one's most powerful friend. Four teaspoonfuls of Grape-Nuts and cream will sustain a healthy man for half a day and a less quantity in warm milk will build up the convalescent wonderfully. No stomach is too weak to digest and relish Grape-Nuts. "I was taken sick with typhoid fever, and everyone who has had this disease knows how weak and lifeless a person feels when beginning to recuperate."

"I had to be very careful about my diet and could eat only very light foods. These did not seem to nourish me and instead of getting better every day I was just at a standstill and everyone began to fear a relapse. One day while lying in bed very much discouraged my sister, who was reading to me from the paper, read an article about Grape-Nuts, and we decided to send for a package."

"From the very first meal of Grape-Nuts I began to improve, strength came in bonds and leaps, with the result that I was soon out of bed; my change for the better seemed simply marvelous. My mind is clear and strong and my body sturdy. I am now entirely recovered." Name given by Postum Co., Battle Creek, Mich.

A dessert that helps the body, that's the thing! Any number of them in the little recipe book in each package of Grape-Nuts.

Celt and Teuton Clash.

Two nationalities are represented among the baggage men of one of the Broadway hotels, and there is not a little friction between the Celt and the Teuton. The two men came into collision in a passageway in the hotel this other day.

"Look a feedie owd," exclaimed the German. "Oder py gimmloy, I'll bunch der Irish face on you yet."

"Be aisy, Dutchy," retorted the Irishman, "or sure O'll teach th' loikes o' yes not to blaguard an Amer-icen citizen."

"I'y dooder," retorted the German, "I'm no furriner."

And there was a display of rival dialects, each expending in efforts to prove the Americanism of its o'woor, until the boss of the baggage men sent them about their work.—New York Mail and Express.

Lessons Expansion.

The expansion of metals on heating is a serious disadvantage for many purposes. The new alloy of iron with 36 per cent of nickel is claimed to expand less than 1-12,000,000, for an increase of 1 degree C., while the expansion of iron is 1-80,000 for 1 degree C. The alloy is recommended for clock pendulums, measures, etc.

## A GREAT ENGLISH JOURNALIST.

Characteristics of the Editor of the London Spectator.

A conspicuous British invader at the moment is Mr. St. Leo Strachey editor of the famous Spectator. No one who studies his portrait will question the strength of the character back of the countenance, but, to our mind, Mr. Strachey's most pleasing characteristics are his incisiveness and breadth. It goes without saying that his early education was neglected because, forsooth, this is his first visit to America; nevertheless, he knows a deal more of our country than many of ourselves know, and, while viewing our idiosyncrasies with that amused tolerance which no true Englishman can hide and which, in turn, is amusing to us, he is the most conspicuous, consistent and staunch friend of the United States to be found in London. He is also, in our judgment, the ablest of English journalists. It is well that he should come here and acquaint himself with our people, and it is fitting that we should express our pleasure of seeing him and our wish that he might remain longer. —Zaner's Weekly.

## Men of Real Value.

The discoverer of a new element or the investigator into the records of the past may be conferring as great a blessing on mankind as the business organizer who has built up a big factory. Men have an insatiable craving for discovery, for progress of every sort. It is as legitimate to devote one's self to reaching the north pole as to spend one's life refining oil. The existence of art galleries of parks, of universities, of scientific organizations of all sorts is testimony to the fact that the life is more than meat. It is quite possible that a few hundred years hence the name of the discoverer of the north pole may be remembered when that of the organizer of the steel trust is forgotten.

A DEMOCRATIC EXPRESSION.

(Mayfield Messenger.)

Prof. Geo. O. McBroom of Paducah is an announced candidate for the Republican nomination for state superintendent of public instruction.

He was born in the state of Iowa and graduated at Drake university of that state. He came to Kentucky and located in Henderson county, where he remained for three years engaged in the schools of that county.

He then came to Paducah, where he was superintendent of the city schools for ten years, during which time he made an excellent official. He is a Christian gentleman, finely educated and able to make a good state officer.

He will probably have no opposition and may receive the nomination. Of course he will have no chance to be elected, even though he be nominated, but for all that he is a nice man.

COMPANY INCORPORATES—

The Orump-Rehkopf harness establishment at Memphis has been incorporated for \$50,000. Mr. E. Rehkopf, of the city, who is one of the owners, has returned from Memphis, where he completed preliminary for the change.

Written at Random.

Capt. Billy Smith, the well known pilot, has a paper which he found at his home on the South Side the other day that is quite interesting. It is the London Weekly Times of November 23, 1862, and is yellow from age. The print is very fine, and a column of matter in those days would make three or four of the modern print. Among the interesting articles is one on "The Civil War in America."

The oddest accident imaginable and a very painful one happened to Jailer O. W. Miller of Marion, Ill., a day or two ago. He was showing some friends the hangman's gallows which had been erected in the jail yard stockade for the execution of Graves and Price and demonstrating how it worked.

In the midst of the explanation he stepped upon the trap door and jumped up and down to show how firm it was. The trigger had not been secured in any way, but was held by an assistant, who in some manner let it slip loose and the trap door fell, plunging Miller to the hard ground ten feet below.

Speaking of the view some public officers take of their responsibility to the people, a good joke is told on a member of the present board of education. Some of his constituents were remonstrating with him on some of the various subjects that have been distressing the members of the board lately, and he could not be persuaded to look at it in the same light as they.

"Yes, you see," protested one, "but you owe this to the people. You are not there to represent yourself, but to represent the people as a whole, and to do what is best for them."

"Well," insisted the trustee, "I guess you are harking up the wrong tree. I am not representing the people. I am only serving an unexpired term."

## PALE ALE AND KY-LO

AGAIN DECLARED NON-INTOXICATING BY THE COURT.

A case of much interest was tried before Circuit Judge R. E. Maiden of Dresden, Tenn., in which W. D. Fraizer, of Martin, Tenn., was charged with selling Laevison's Kyle and Pale Ale, which were claimed to be intoxicating; but after testing these drinks and hearing the evidence of a number of witnesses, and the proof showing them to be non-intoxicating, the jury dismissed the case, deciding that it was not a violation of the local option law to sell these beverages.

The decision is of much importance to A. M. Laevison & Co., of this city, and their many customers in this state and Tennessee.

"Look up, old man. You're all right," said Anguish. "Smell this handkerchief. It will make you feel better." A moist cloth was held beneath his nose, and a strong, pungent odor darted through his nostrils. In a moment he tried to raise himself to his elbow. The world was clearing up.

"Lie still a bit, Lorry. Don't be too hasty. The doctor says you must not."

"Where am I, Harry?" asked the wounded man weakly.

"In the castle. I'll tell you all about it presently."

"Am I in her room?"

"No, but she is in yours. You are across the hall in"—here he whispered—"Uncle Caspar's room. Caspar is a saint."

"And she is the princess—truly?"

"What luck!"

"What misery—what misery!" half moaned the other.

"Toah! He a man! Don't talk so loud either! There are a half dozen in the room."

Lorry remained perfectly quiet for ten minutes, his staring eyes fixed on the ceiling. He was thinking of the abyss he had reached and could not cross.

"What time is it?" he asked at last, turning his eyes toward his friend.

"It's just 7 o'clock. You have been unconscious or under the influence of ether for over four hours. That guard hit you a fearful crack."

"I heard a shot—a lot of them. Was any one killed? Did those fellows escape?"

"Killed! There have been eight executions besides the one I attended to. Lord, they don't wait long here before handing out justice."

"Tell me all that happened. Was she hurt?"

"I should say not! Say, Gren, I have killed a man. Danno got my bullet right in the head, and he never knew what hit him. (Ghastly, isn't it? I feel heavily queer. It was he who turned on the lights and went at you with a club. I heard you call and was in the door just as he bit you. His finish came inside of a second. You and he spoiled the handsomest rug I ever saw."

"Ruined it?"

"Not in her estimation. I'll wager she has it framed, blood and all. The stains will always be there as a reminder of your bravery, and that's what she says she's bound to keep. She was very much excited and alarmed about you until the room filled with men, and then she remembered how she was attired. I never saw anything so pretty as her embarrassment when the countess and her aunt led her into the next room. These people are going out, so I'll tell you what happened after you left me with the cook. He was a long time falling under the influence, and I had barely reached the top of the stairs when I saw Linnox rush down the hall. Then you called, and I knew the jig was on in full blast. The door was open, and I saw him strike you. I shot him, but she was at your side before I could get to you. The other fellows who were in the room succeeded in escaping while I was bending over you, but neither of them shot at me. They were too badly frightened. I had sense enough left to follow and shoot a couple of times as they tore down the stairs. One of them stumbled and rolled all the way to the bottom. He was unconscious and bleeding when I reached his side. The other fellow flew toward the dining hall, where he was immediately nabbed by two white uniformed men and throttled."

"Other men in white—they were regular police officers—pounced upon me, and I was a prisoner. By George, I was knocked off my feet the next minute to see old Dangloss himself come puffing and blowing into the hall, redder and fiercer than ever. 'Now I know what you want in Edelweiss!' he shrieked, and it took me three minutes to convince him of his error. Then he and some of the men went up to the princess' room, while I quickly led the way to the big gate and directed a half dozen officers toward the ravine. They came up finally with the two fellows who had been stationed beneath the window and who were unable to find the gate. When I got back to where you were, the room was full of terrified men and women half dressed. I was still dazed over the sudden appearance of the police, but managed to tell my story in full to Dangloss and Countess Halfont—that's Uncle Caspar—and then the chief told me how he and his men happened to be there. In the meantime the castle physician was attending to you. Danno had been carried away."

"I never talked to a more interested audience in my life. There was the princess at my elbow, and the countess—pretty as a picture—back of her, all eyes, both of 'em, and there were the old gray haired lady, the Countess Halfont, and a half dozen shivering maids, with men galore, Dangloss and the count and a lot of servants—a great and increasing crowd. The captain of the guards, a young fellow named Quinnox, as I heard him called, came in worried and humiliated. I fancy he was afraid he'd lose his job. You see, it was this way: Old Dangloss has had a man watching us all day. Think of it—shadowing us like a couple of

**Anatomically True.**

When you want accuracy in a picture there is only one sure way to secure it—by a photograph! A drawing made on careful measurements may or may not be accurate; a photograph must be. In the same way when you want an accurate fit in a shoe there is only one sure way to secure it.

*Don't trust to luck on a last made by ordinary measurements, but use a last constructed on an "X-ray" photograph.*

The "Dorothy Dodd" shoe fits the foot as no other shoe ever can, because in shaping it I have been guided entirely by "X-ray" photographs of the foot.

This explains the marvelous fit of a "Dorothy Dodd."

Sincerely yours,

Paducah Won a Good Game Yesterday.

Henderson Also Beat Her Opponent—Pitcher Freeman Is a Wonder.

**OTHER GAMES PLAYED**

**STANDING OF THE CLUBS.**

Club	Won	Lost	Pct.
Henderson	11	7	.611
Cairo	12	8	.600
Paducah	10	8	.555
Jackson	10	10	.500
Clarksville	5	7	.416
Vincennes	7	12	.368

**COULDN'T HIT FREEMAN.**  
Vincennes, June 11—The superior twirling of Freeman, a young Tennessee farmer, won the game for Paducah yesterday. Zinken, formerly with the Cleveland league, was the umpire. Score: Vincennes, 0 0 0 0 0 0 0 2 2 6 8 Paducah, 0 1 2 0 0 0 0 1 7 11 6 4 Batteries: McNeal and Kelly; Freeman and Olifford.

McNeal was as easily found yesterday in the game at Vincennes as he was when Vincennes was here last week. The boys battled well, as the hits show. The local boys had better luck again in fielding, making only four errors. Freeman gave only five hits, and these were well placed, the scores having been made on errors and no earned runs having been marked down against Freeman.

Manager Jackson thinks he has a wonder in Freeman, who has not yet lost a game. This new pitcher came from the same town as Mr. J. W. Little, the spoke factory man, Dresden, Tenn., and has been playing ball a comparatively short time only. He has been pitching ball on a college team and uses tobacco in no form and does not touch a drink.

Paducah plays at Henderson today, while Cairo goes to Hopkinsville and Vincennes to Clarksville. The Paducah team will return here Sunday morning and play Hopkinsville a series of three games, after which the team will lay off for three days unless Washington, Ind., comes in with her team in time.

**CAIRO WINS**  
Clarksville, June 11—Cairo played all-around better ball. Clarksville could not hit Brockett. Score: R. H. E. Cairo 2 1 0 1 1 2 0 2 0—9 14 2 Clarks. 1 0 0 1 0 0 0 0 0—2 5 7 Batteries—Collins and Holmes; Brockett and Rutledge.

**HENDERSON IN THE FRONT.**  
Henderson, June 11—Henderson 5, Jackson 3, ten innings. Batteries—Holin and Warner; Betts and Pettit.

**PADUCAH WON AGAIN.**  
The Enrekas of Paducah and the Gold Dollars of Evansville, colored clubs, played another game at Wallace park yesterday and Paducah won by a score of 9 to 7. The local club, which is the crack colored team of this section, will shortly play the Chicago Unions, the only club that ever beat them, and a great deal of interest is manifested in the games.

The I. C. railroad team has decided to elect a manager, as Manager Rabin is too busy to remain in charge.

**TO MARRY IN JAIL.**  
ALEX YELTIMA TO WED ANNIE NELSON.

Alex Yeltima, who is now in jail waiting the action of the grand jury in a charge of robbery, will this afternoon be married to Annie Nelson.

Yeltima was taken from jail this afternoon and in company with Deputy Jailor Randolph secured his license. He will be married about 4 o'clock by County Judge R. T. Lightfoot. This will make the first white marriage ever performed in jail. Several weeks ago Joe McInire, colored, was married in jail, making the first marriage of any description ever performed there.

**HOUSE AND LOT FOR SALE.**  
Here is an unusually good bargain. Must be sold quick. Five room home, No. 1736 Harrison street, one-half square from Fountain avenue, lot 50x165 feet, good shade, stable, etc. This house is nearly new and must be sold within 60 days. Price \$900. S. A. HILL.

**Theatrical Notes.**

"La Mascotte" was presented for the third and last time to a large and enthusiastic audience last night at the Casino. Mr. R. Ed Mayo, the basso, who has heretofore taken only light comedy parts, won for himself quite a reputation as a comedian. Mr. Mayo has been playing leading comedy parts all his life and is well up with Comedian Walker, who took the leading comedy role in this production. Mr. Walker made his usual hit last night. Mr. Trappart's arrangement of "Hilawatha" will be repeated with the "Mascotte" opera if the latter is billed for Sunday night. This is one of the prettiest arrangements of a popular song ever heard here.

Tonight "Bohemian Girl" will be presented and will run the remainder of the week. This is more on the style of grand opera and is one of the prettiest operas in the repertoire of the Ideals. No doubt a large crowd will be out to see the initial production.

Miss Alma Hays has resigned with the Boston Ideal company and expects to leave Thursday for Chicago to begin studying for the operatic stage.

**ELOPING COUPLES.**

**TWO MARRIED, ONE COUPLE AT METROPOLIS.**

Mr. Will E. Watkins and Miss Artie Powell, of Clear Springs, Graves county, arrived this morning from Mayfield and left on the Fowler for Metropolis, where they were married by Judge Thomas Liggett. It was a runaway match, and the young people are very prominent in their section. They will return this afternoon and go back to Graves for forgiveness.

Mr. Eugene Lassiter, a well known photographer of Metropolis, Ill., and Miss Ida Adams, a popular young lady of Hickman, Ky., were married in Union City, Tenn., yesterday, whither they had eloped to elude parental objection. They came up to Metropolis last night on the Dick Fowler.

**COURT AT WICKLIFFE**

**ATTORNEY MCCARTNEY LEFT TO TRY A CASE TODAY.**

Attorney McCartney left today on the Fowler for Wickliffe, Ky., where he will represent one of the sides in an unusual case. It is an injunction to settle a question relative to a party fence, in which one of the owners claims recompense for building the fence. The plaintiff is the estate of Margaret E. Strong, deceased, and it is said that it is the first time the question was ever raised in the Kentucky courts.

**WENT TO 58.**

**QUITE A CHANGE IN TEMPERATURE REGISTERED.**

The temperature has been quite pleasant today, many thought obliquely, as it came so closely after weather that was quite warm. Last night the minimum was 58, which, while not unusual for this season, is a great deal cooler than it had been. The wind is now in the north for the first time in a month.

**SUSPICIOUS CASE.**

**HEALTH OFFICER GRAVES TO INVESTIGATE TODAY.**

A man living in Mechanicsburg named Green is thought to be ill of smallpox and Health Officer Graves will this afternoon visit him and investigate the ailment. The man's little son has been ill with smallpox, and is now well, but the father is ill and has eruptions on his face. It is said.

**The Kind That Won't Lose Shape**

Did you ever notice how quick thin clothing loses its shape? It's because it is not made right. We overcome that fault in our Correct Summer Clothing—we've had it made a new way. The coats have a full shoulder, with hair-cloth stiffening down the front, that keeps them from breaking or losing shape. The pants have cuff bottoms, concealed buttons and felt straps, the cloth is thoroughly shrunk which overcomes bagging at the knee. There's no clothing like it for fit and style in Paducah. We show the new Irish Donegal Cloths, Cheviots and Homespuns in coats and pants for men and young men
